

# NATURE PLAY RECIPE CARD

## Stick Tower

### INGREDIENTS:

- A variety of sticks, different thicknesses and lengths
- Fruits, nuts, leaves, pebbles, flowers, everything you can find.

### METHOD:

- Collect your sticks
- Sort them into piles from small to large
- Try different ways of constructing a stable tower with the sticks, this can be as small or as big as you want
- Which construction techniques work best, share them with your friends.
- Try different towers and different size sticks, it doesn't have to be the tallest.

### SAFETY AND CARE:

- Carry multiple sticks in a bucket
- Always drag large sticks and branches one by one and carry to the side of you with one end on the ground
- Always walk when carrying sticks
- Be aware of who is around you when making a stick tower so that you don't hit anyone with the end of your sticks

### Did you know?

In Murtoa, Australia they made a shed out of sticks measuring 18 metres high!
